CORRECTION OF LEASE DESCRIPTION ON OIL, GAS AND HYDROCARBON LEASE JBML 30495

Gas, and Hydrocarbon Lease ML 30495 was issued May 13, 1974, and the lease description is recited as, "That portion of the SE $\frac{1}{4}$  of Section 17, Township 18 South, Range 7 West, SLM. covered by Certificate of Sale G-39."

This is not an adequate lease description; and it is recommended that the lease description of ML 30495 be amended to read, "That portion of the SE $\frac{1}{4}$  of Section 17, Township 18 South, Range 7 West, SLM., lying west of the Union Pacific Railroad, containing 80.00 acres.

Upon recommendation of Mr. Prince, the Director approved this correction.

REQUEST FOR APPROVAL OF THE ANTELOPE ISLAND UNIT, DAVIS COUNTY, UTAH

Antelope Island Unit is located in the Great Salt Lake just west of the north portion of Antelope Island in northwest Davis County. This unit area contains 17,947.00 acres, all of which are leased by the State of Utah to Amoco Production Company. This unit agreement is patterned after the standard Rocky Mountain Oil and Gas Association unit; but since there are only State lands involved, all references to the United States Geological Survey or the United States have been changed to the Division of State Lands and the State of Utah. The unit provides that the unit operator will, within one year after the effective date of the unit, commence the drilling of a test well at a location to be approved by the State and will continue the drilling of said well until the Paleozoic formation has been tested or until at a lesser depth oil or gas is discovered which can be produced in paying quantities. The unit operator will not be required to drill the well to a depth in excess of 12,000 feet; and the unit operator will, until the discovery of oil or gas in the unitized lands, continue drilling wells within the unit area, allowing not more than one year between completion of one well and the beginning of the next, until a well capable of producing oil and gas is completed to the satisfaction of the State or until it is reasonably proved that the unitized lands are incapable of producing oil and gas in paying quantities.

If the operator completes a productive well, they will within six months provide the State with a plan of development for further drilling and operation of this unit area. This unit will be for a term of five years after the effective date unless such expiration date is extended by the Board of State Lands or unless oil and gas are discovered in commercial quantities on the leased lands.

The following are the State of Utah oil, gas, and hydrocarbon leases included all or in part within the unit area:

ML 28576	Amoco Production Company
ML 28577	Amoco Production Company
ML 28578	Amoco Production Company
ML 28579	Amoco Production Company
ML 28581	Amoco Production Company
ML 28582	Amoco Production Company
ML 28583	Amoco Production Company
ML 28585	Amoco Production Company
ML 28588	Amoco Production Company
ML 28671	Amoco Production Company
ML 28674	Amoco Production Company

These leases have been committed to the unit. This unit is in order, therefore, upon recommendation the Director approved this unit.

REQUEST FOR APPROVAL OF THE LOVE UNIT

Cotton Petroleum Corporation, operator of the Love Unit, has filed this unit for approval by the State of Utah.

The Love Unit is located in west-central Uintah County 12 to 18 miles south of Ouray, Utah. The unit area contains 24,038.52 acres of which 21,649.18 acres or 90.06 acres are federal land, 1,909.34 acres or 7.94% are State lands, 320.00 acres or 1.33% are private lands and 160.00 acres or 0.67% are Indian lands.

This unit agreement provides that the operator will, within six months after the effective date of the unit, commence the drilling of a well of a depth sufficient to test the upper 1500 feet of the Mesaverde formation, but not to exceed a depth of 8,000 feet. This agreement is on the standard unit form and it contains the necessary State land provisions.

REQUEST FOR APPROVAL OF THE LOVE UNIT CONTINUED

The following are the State of Utah leases included in this unit:

ML 22316 - Gulf Oil Corporation  
ML 23316-A - Enserch Exploration, Inc.  
ML 22347 - Gulf Oil Corporation  
ML 22347-A - Enserch Exploration, Inc.

These leases have been committed to this unit. This unit is in order and upon recommendation of Mr. Prince, the Director approved this unit.

REQUEST FOR APPROVAL OF THE MILL CREEK UNIT

Exxon Company, USA, operator of the Mill Creek Unit, has submitted this unit for approval.

The Mill Creek unit is located in Summit County in the extreme southern portion of the Wyoming Thrust belt between the Utah-Wyoming border and the Uinta Mountains. The Mill Creek unit contains 9,656.12 acres, of which 1865.34 acres or 19.3177 percent are Federal lands, 160.00 acres or 1.6570 percent are State lands, and 7,630.78 acres or 79.0253 percent are private lands.

This agreement provides that the operator will, within six months after the effective date of the unit, commence the drilling of a well of a depth sufficient to test the upper 300 feet of the Nugget formation, but not to exceed a depth of 5000 feet.

This agreement contains all of the necessary State land provisions. The only State of Utah lease, ML 30806, American Quasar Petroleum Company of New Mexico, has been committed to this unit; therefore, upon recommendation of Mr. Prince, the Director approved this unit.
